(Uttar Pradesh)

I strongly believe in Constitution of India and Secularism, I feel that's what for India is known for, this two words describes ethos of our Nation. I belong to development sector community and wish to work impactfully towards development of India. Businessmen in Mumbai and Farmer in Uttar Pradesh (Siddharth Nagar). when I say India for me Nation is not a piece of territory, infact Nation is group of Individuals with optimum freedom and liberty in every form. India is suffering from diseases of communalism, which is tempering identity of our India. I feel Nation should unite for tackling such kind of infringing act, which intent to demolish ethos of our Nation. I believe in God, but that is very personal thing and I don't feel of preaching

it to the society. I strongly believe in communal and corruption free India. I am admirer of Jawaharlal Nehru, Ram Manohar Lohiya, Indira Gandhi, VP Singh and Manmohan Singh. Describing about them and judging their ability is out of my ambit, but I feel India need such iconic leader to make it India of Gandhi's dream. I wish I could contribute with my hard work and effort to be impactful towards society and country.

Jai Hind Jai Bharat
